

CHIRO COMFORT
collection

The **CHIRO COMFORT** Scale

Our **Comfort Scale** is designed to help you choose the **best mattress for your family** based on your personal sleeping **patterns and preferences**. It simplifies the overwhelming choices, making it easy to **find the best bed for you**.

BACK & FRONT *Sleepers*

A firm mattress will provide a solid sleeping surface & optimal spinal alignment.

RANDOM *Sleepers*

A medium mattress allows you to sleep in any position comfortably. It's great for a couple who have different sleeping preferences.

SIDE *Sleepers*

A plush mattress will provide cushioning to the contours of your body & alleviate pressure points.

The Chiro Comfort Collection offers 4 types of core technologies & to help you find the ideal bed!

A SOLID FOAM CORE

This provides a stable base for the firmest support possible & little motion transfer.

STEEL COIL SYSTEM

This coil system provides even weight distribution & provides a balance between firm & flexible cushioning.

5-ZONED FOAM ENCASED STEEL COILS

Zoned support to relieve pressure points & provide 20% more sleeping surface.

3 ZONED FOAM POCKET COILS

Contoured support for extra support and a edge-to-edge supported sleeping surface.
